We are excited about the upcoming 31<sup>st</sup> annual New Direction Sale which will be held at the farm on Saturday, October 18<sup>th</sup> at 12:00 pm.

It has been another special year for our family. Since the last sale we welcomed two more beautiful grandsons, Nick Roger and John Henry. They join their five cousins to create many special times together. We are very thankful and blessed!

I am very appreciative of our group of consignors, all who I consider very good friends. They have all made a commitment to bring their best to the sale.

The cattle business is at an all-time high with markets being tremendous. It is a great time to be involved with Simmentals, an outstanding breed.

This year we are offering an elite set of open heifers with excellent pedigrees, exceptional pairs, a top set of cows, and bred heifers. Genetic offering includes outstanding pregnancies, select embryo matings, and semen. You also have an opportunity to add a powerful herd bull to your program, Redstone.

Finally, I want to thank all who make an annual sale possible. I want to thank my brothers Scott and Bill, the consignors, consultants, DP Sales Management, Doug and Drew, and the friends who are so helpful.

Please join us on October 18<sup>th</sup>. If you can't make it, you can watch the sale on DV Auction. Call any of the consignors or DP Sales, Doug or Drew if you have any questions.

Nick

Redstone has established himself as one of the most widely used and proven red bulls in the Simmental breed. Having the opportunity to own him and turn him out in my pastures has truly been a privilege. Adam Andrews of Millstone Farms and I purchased him from Jerry Lee, and together we have utilized him both naturally and through AI. He has consistently sired top calves for breeders across the country, and the repeat semen orders speak for themselves.

Now is your opportunity to add Redstone to your program! He sells with 20 units of semen—a \$1,000 value. Having a herd sire of Redstone's caliber walking your pastures is the kind of investment that elevates any operation.

Bred AI to **OMF Jester J47 (3953563)** on 1/15/25. Due 10/24/25  
 C056 has a long history of winning. From making the top 10 herself at junior nationals as a bred heifer to raising daughters that have captured wins across the country including at the Nebraska State Fair and Minnesota State Fair. When Shez It sold in the 2021 Black Label sale she commanded \$30,000 followed by four daughters that brought \$26,000, \$17,000, \$15,000, and \$7,500. Since then she has continued to produce high quality females including a pile of which have averaged between \$10,000-\$15,000. This female has a ton of life and earning potential left in her. Due to our donor battery continuing to grow we made the decision to let someone else have the chance to own this elite female. She is bred for a fall calf to our herdsire we own with Werning Cattle, OMF Jester J47, who also sired the high selling bred female in the 2025 Werning Cattle Production Sale. All the stars have aligned on this proven donor. Dig in and bid with confidence she is ready to go to work for you!

Recip. **SS Gem Stone G321 3603190 1/21/19 G321**  
 Sire: **JF Back In Black 406B** Dam: **Bramlets Beautiful A321**

When Nick was kind enough to call and invite us to the New Direction sale we decided we wanted to bring a quality pregnant recip. We decided where better to start than with a Back in Black x Bramlets Beautiful cow we had purchased from this very sale as an open heifer in 2019. This female has taken 3 embryos in a row for us and to be honest she is probably good to be carrying embryos but around our place we seem to stick them in as many cows as we can come up with. Take a look at the mating she is carrying as well a Next Level x WLE Shez It C056. This will be one of the first of this mating to be offered. We expect big things out of this mating being carried by an ultra high quality cow.

Lady Relentless 128J Flush- Not many females can walk on our place at Sloup Simmentals and compare to some of the famous all time donors in the Simmental breed including Magnetic Lady, Lookin Sharp, Onyx and others, but Lady Relentless has all the attributes of these great donor females. Nick and Bill Sloup partnered with our friend, Craig Kaisand to add this powerhouse and these genetics to our programs. When Lady Relentless arrived, she stunned us with her looks and make-up. In fact this summer, she was in the same pasture as Lookin Sharp had been last summer and it seemed as if Lookin Sharp had never left. Lady Relentless is that good!

We are offering a flush after she calves to the bull of your choice. Buyer will receive a minimum of 8 embryos with a cap of 12 and three pregnancies. We welcome you to join us in the history writing of this next great donor!

E65 is a beautiful Black Baldy cow named after our first granddaughter, and this Relentless daughter commands the attention of every visitor to the farm. "Ellie" is the definition of a front-pasture female—an investment that will pay dividends for years to come.

Progeny from this line have been highly sought after: in our 2023 sale, Regan Connealy selected a Cowboy Logic daughter for \$6,000 and another open by W/C Fully Loaded, while in our 2020 sale Pam Haley chose a Lock N Load.

We are offering a flush after she calves to the bull of your choice. Buyer will receive a minimum of 8 embryos with a cap of 12 and three pregnancies.

Girl Talk is the direct daughter of the famed Phyllis 423 cow. The 423 cow has surpassed \$4m in lifetime earnings. The Girl Talk Donor, out of the Pay the Price bull, is unique in her design. She is big footed, big bellied, big hiped, long fronted, and her neck ties in at the perfect angle on her shoulder. This mating to the now deceased, Broker bull has the chance to be the best mating to date. From strictly a pedigree perspective it combines two of the most dominating and high revenue generating cow families in the Angus and Simmental breeds. From a phenotypical perspective we expect that this mating will produce a calf that has a tremendous amount of eye appeal and an overwhelming amount of body shape, internal dimension, and power without sacrificing the look that the tan bark demands. The homework is done here. Take this recip home and anxiously await your New Years present. (commercial receipt.)

This is a heifer that I am really proud to offer. I purchased her mom, Dream's Come Red, last year in the North Carolina Fall Sale. I love her mom and know she will be a mainstay in my herd for a long time. Maisie is built like her mom, but black. This is an awful nice heifer to choose from!

We have made the comment many times around the barn this summer if our boys were old enough to show this female would not be going anywhere. Maybe the most complete female we have ever been able to raise. Long spined and level hipped with a big bold rib cage that blends perfectly into her front shoulder. She is ultra sound and built for the long haul. This Red Bird daughter is elite in the way her neck comes out of her shoulder combining everything essential for winning the big shows. Not to mention some of her maternal sibling already blazing the trail including wins at the Nebraska and Minnesota state fairs. Study this female we believe everyone will appreciate her and see the future she offers in being a big time show heifer and dollar generator in the donor pen.

Miss Lullaby has some real potential both in the showing and in the pasture. She is the calf off of the \$40k pair from the Stars and Stripes sale this spring. She ties together some tremendous pieces, from her sweeping rib shape to her big stout hip, she has it all. As people have been by the farm all summer she is their pick and for good reason. Whether you are in the market for a show heifer or your next donor she will fit the bill and follow right in her mother's footsteps and maybe even pass her. Unfortunately our photographer had a family emergency right before picture day and we didn't get one for the catalog but look for one in future weeks as she is one not to miss on sale day.

Serenade continues the legacy of Sloup Simmental elite donors! I have been blessed to work with some of the best donors in the breed like Lookin Sharp Onyx, and Steel My Heart to name a few. In this spring's Stars and Stripes Sale, Greg Stewart was offering a female that I felt was elite in her overall donor potential. When I saw that he was selling this direct daughter of Serena and full sib to STCC Techumseh, I asked Greg if he would be willing to sell half of her and after the sale I was able to partner with him on this stunning donor. Many saw the same thing and when the gavel came down she sold for \$40,000. Her phenotype is second to none, with a clean front, soggy middle, stout hip with a beautiful udder. We immediately went to work and began making embryos. In the New Direction Sale we are offering her first sets of embryos. You will have the opportunity to purchase your choice of three matings: RJ Trust Fund 212K, Remedy and Revelation 2K. These will be sets of 3 sexed heifer embryos guaranteeing one pregnancy. These are the kind of genetics that are investments and program changing!

Dixie is a little older cow that has stood the test of time. She is structurally sound, has as much power as you can build in one, and is an outstanding milker. She is a bull making machine that exhibits as much mass and internal dimension as any animal we have owned. Dixie has consistently raised off some of our heaviest calves at weaning due to her ability to pass along that natural thickness in combination with her outstanding maternal ability. She was bred to Rainfall and calved with a heifer by the now deceased Rainfall bull this morning as footnotes are being submitted.

 PE to **HNFLD Deadpool H52 (4001001)** from 12/23/24 to 3/1/25

Miss Steel My Heart is a moderate framed red baldy that was a pregnancy that we purchased from our good friend Randy Thompson, at Cyclone Simmentals. Her dam, who is a full sibling to the infamous Broker bull, has consistently proven herself to be one of the elite donors in the breed. Combine that with the Fort Knox bull and you have a heifer that is long sided, long necked with the internal dimension, and fleshing ability that we all demand. Her temperament is second to none. We think her calf to the exciting Point Proven bull could be next-level good.

 Miss Burn Baby Burn is a black baldie, well balanced, and nicely designed 3/4 blood heifer. She stems back to some of the most prominent and productive genetics in the breed, Lock Down, Broadway, Built Right, Dream On, and obviously the Burn Baby Burn line of cattle. Much like her pedigree would suggest, she is the perfect combination of frame, power, mass, and athleticism. She is due-up before the sale to the exciting Point Proven Bull which should make for a phenotypical masterpiece. Highly productive young genetics that will have a promising and profitable future for their new owner.

**Announcements**

A supplement sheet will be available sale day with updated information, catalog corrections, or any additional information. This information and any information relayed over the auction block during the sale will take precedence over printed material for the sale. Anyone attending the sale does so at their own risk. DP Sales Management, sale hosts, and/or consignors will not be held responsible for any personal injury incurred at the event. DP Sales Management is only an agent for the seller and has no responsibilities other than those conducting the sale.

**Note**

All cattle sell under the Suggested Terms and Conditions of the American Simmental Association. View updated guidelines and conditions at [www.simmental.org](http://www.simmental.org)
